ABOUT HALAL INDO

The Halal Indonesia International Industry Expo (Halal Indo) will be held again in Indonesia, with full support from the government. This event is aimed at both business-to-consumer (B2C) and business-to-business (B2B) markets. The country with the second largest Muslim population in the world. Indonesia has significant potential in the Halal industry. Halal products include not only food and drinks but also cosmetics, pharmaceuticals, fashion, and other services.

The expo aims to provide a platform for Halal industry players to showcase their products and services, attract attention from local and international markets, and raise awareness about the importance of high-quality and reliable Halal products. With support from relevant ministries, the expo is expected to further develop Indonesia's Halal industry, in line with the government's vision of making Indonesia a global Halal industry hub. Additionally, the expo will serve as a meeting place for various stakeholders, including producers, distributors, investors, regulators, consumers, communities, and educational sectors, to strengthen business networks and create mutually beneficial collaboration opportunities.

“ Globally, currently Indonesia sharia economic indicators continue to improve by successfully ranking fourth in the world. We as a great nation need to reposition our country's role as a global leader in the halal industry. ”

Agus Gumiwang Kartasasmita
Minister of Industry of the Republic of
Indonesia

FOOD & BEVERAGES
