The regulations and principles for using electricity services.

The organizer has given officially assignments to the Management exhibition and electric Co., Ltd. to be the head of responsible for all electricity services as following:

1. The general electricity services

1.1 It contains 2 main electric circuits, the electric circuit for lighting branch circuit and the individual branch circuit for showing products.

1.2 The standard electricity which had been provided are alternating current 220-volts 50 Hz one phase and 380-volts 50 Hz three phase with an error rate ± 10%. If the equipment that you brought is at risk to the fluctuation of voltage, you should use voltage stabilization device for protection and safety.

1.3 If you want to use others electric circuits such as single phase alternating current 110-volt 50 Hz or three phase alternating current 220-volts 50 Hz. You can request for special services by contacting directly to staffs of Management exhibition and electric Co., Ltd.

1.4 All of electric motors need to have automatic protection system for preventing overcurrent so you should have the starting system as following:

1.4.1 The direct starting system: the motor size less than 5 (hp)

1.4.2 The STAR-DELTA starting system: the motor size 5 to 25 (hp)

1.4.3 The AUTO TRANSFORMER starting system: the motor size more than 25 (hp)

Exhibitors and contractors who want to use electric current, please do not forget to reserve the breaker electric size which suitable for using in your process and provided for Safety factor at least 20%. In keeping with safety standard and prevent accidents that might occur from using overload electric current.

You must use suitable electric cable size for wiring electric interior and you have to manage about grounding system in every area. Lastly you have to use insulated wires for wiring electric under raised floor.

2. The electricity services in standard arched space.

2.1 The electricity system in standard arched space size 3.00*3.00 meters consists of lighting equipment and a plug outlet size 5 amps (Do not combine them with lights) 2 of these included in the electric current expenses already.

2.2 Exhibitors can request for using services by inform through pre-emption electric certificate which are divided in 4 sections.

Section 1: For exhibitors who want to use electricity for construction and demolition.

Section 2: For exhibitors who want the circuit breaker for display their products. (Do not use it with lightning)

Section 3: For exhibitors who want the equipment and breaker for cutting lightning circuit.

Section 4: For exhibitors who bring their own lightning equipment for using, in the even that they want to install by themselves and connected the wires by Management exhibition and electric Co., Ltd.
2.3 If you want to request for additional electricity services. Please read rules and conditions which specified in the form.

2.4 Exhibitors who were allowed to use their own lighting equipment. You have to order for using electricity from the power supply according to the services order form Section 3 or 4.

2.5 The organizer reserves the right to cut off electricity which Management Exhibition and Electric Co., Ltd. deems to be dangerous or cause annoyance to the audiences or other exhibitors.

2.6 Every day after 30 minutes of closing, the power supply for the exhibition will be cut off and on the last day of the exhibition, the electricity will be cut off after 60 minutes of closing but the electricity still working only in the 24 hours service points.

2.7 Any electrical connections, modifications, using of multiple outlets, or any unauthorized electrical connections. It caused the electricity is cut off without prior notice.

3. The electricity services in specific arched space.

3.1 Exhibitors who reserve only “space” to decorate a specially designed booth. You have to submit a request form for electrical service for the specially designed exhibition booth.

3.2 The organizer has provided general lighting in the exhibition building but for the electrical installation inside your booth and for demonstration purposes can be done by your electrical contractor who has been only approved from the organizer. Exhibitors just submit the order form for electrical services according to your needs to Management Exhibition and Electric Co., Ltd. with payment within the specified period and for safety we do not allow to connect the power supply for exhibited products or lighting equipment to the main power supply system of the building is strictly prohibited. The organizer has the right authority to suspend the power supply in case of improper electrical connection.

3.3 The equipment and cables must have a TISI standard and suitable size for the standard electricity used.

3.4 Ordering the 3-phase electric circuit breaker must be directly connected to 3-phase electrical equipment. If you want to use separate phase electricity, we request that it would be only installed through a 3-phase load center cabinet.

3.5 Electrical contractor who assigned from the exhibitor have to send the electrical connection details, electrical circuit drawings and other details must be submitted to the organizer before the deadline that was specified in the order form. Please attached these details for consideration and approval as follows:

3.5.1 Name of contractor’s company

3.5.2 Name and ID cards of staffs

3.5.3 Numbers of watts or power rating

3.5.4 The design of circuit connection or electrical equipment

3.5.5 The form of ordering electricity service
3.6 The electricians who were approved. You can exchange your ID card for the entry card from the exhibition management office of the organizer that exhibits the products in that area.

3.7 For the specific arched space and the empty space, exhibitors have to order 2 types of electricity.

1. Electricity for the display products

2. Electricity for lightning

3.8 The electricity connection that was operated by your contractor who was assigned from the exhibitor must verify from the Management exhibition and electric Co., Ltd. before connect it to the power supply.

3.9 Exhibitors who order electricity service with the Management exhibition and electric Co., Ltd. They will get services from the company first-come, first-served.

3.10 Any electrical connections, modifications, using of multiple outlets, or any unauthorized electrical connections. It caused the electricity is cut off without prior notice.

3.11 Do not allow to use flashing lights except they are parts of the integrated circuit.

3.12 The organizer reserves the right to cut off electricity which Management Exhibition and Electric Co., Ltd. deems to be dangerous or cause annoyance to the audiences or other exhibitors.

3.13 All of the electricity connection will be complied with the principles and safety standards without exception.

4. **Wiring within the system** must use the appropriate wire size according to the standard and wired up the ground system at every point. If you detect that the use of wires without standard or the installation that the company deems to be unsafe according to the specified standards, The company reserves the right to temporarily suspend the electricity supply until it will be resolved the standardized.
